---

Will do, are you going to send an invite for this meeting?

**Subject:** FW: ODEQ call (Wed 11:00 am)

Can you join our monthly call with ODEQ this week? They specifically want to talk enforcement issues on Wilcox and Tulsa Fuel.

**Subject:** RE: Call next week?

Yes, I was still planning for the call next week.

The program I would love to talk to also is enforcement. Specifically, I would like to talk about Wilcox and Tulsa Fuel. Would that be possible to have Ben or Lydia on the call?

I have been trying to work with Susan on 3 sites for removal. I don't know if she would like to talk again. I don't feel like I am getting very far with what my bosses have tasked me to do. The 3 sites are Wilcox, Henryetta Iron and Metal, and Eagle Industries.

I don't have any site assessment issues really. I do have it on my to-do list to try to get Chris on the phone to talk about risk assessment training for my staff.

Grants I think I know. We are waiting on funding for a bunch of projects. If we have to wait too long it will affect some of our project schedules. But I heard from Kathy this week that she doesn't have any money and doesn't know when she will have money to send grant awards with. I will let you know which projects will be impacted on the call.

So my agenda for remediation is currently:

- Tulsa Fuel status
- Tulsa Fuel PRP update from DEQ to EPA
- Tulsa Fuel Railroad update from DEQ to EPA
- Wilcox plans and Lane property status

- Tar Creek project status
- ORC status
- Blackwell/Kay County
- 5-year reviews that DEQ plans to start this spring
- Other sites of interest?

**Subject:** Call next week?

Are we still on for a monthly call next week? If so, would you like any of the other programs on the call? Site Assessment, Grants, Removal, Community Involvement??
